

SEHAR LATIF

MERN Stack Developer

www.linkedin.com/in/sehar-latif | +92 3207699527 | seharlatif75@gmail.com | Lahore, Punjab

PROFILE

Organized and dependable Full Stack Developer with experience in managing multiple priorities efficiently while maintaining a positive attitude. Proven ability to collaborate with cross-functional teams, develop scalable solutions, and deliver high-quality results. Strong interpersonal and time-management skills, with a focus on problem-solving and continuous improvement. Seeking a challenging full-time position to leverage expertise in front-end and back-end development, API integration, and mobile-responsive design.

PROFESSIONAL EXPERIENCE

MERN Stack Developer – (Access Groups SMT LTD)

 December, 2023 – Present

- Developed and maintained full-stack applications using MongoDB, Express.js, React.js, and Node.js (MERN stack).
- Worked closely with back-end developers to design and write effective **RESTful APIs** for handling complex business requirements.
- Integrated databases (MongoDB) for managing listings, purchases, and sales in an efficient and secure manner.
- Utilized **Git** and GitHub for version control, ensuring seamless collaboration and efficient code management.

Responsibilities:-

- Designed **client-side and server-side architecture** for scalable and secure web applications.
- Built **mobile-responsive designs** and developed well-functioning databases and applications.
- Created and integrated security and data protection settings in line with industry best practices.
- Worked with **version control** systems like **Git** to manage development processes and maintain codebase integrity.

Environment: HTML 5, CSS 3, React JS, Redux Toolkit, Node.js, Express.js, MongoDB, Bootstrap, Tailwind CSS, Material UI, JSON, RESTful web services, Visual Studio, Git Hub etc.

React JS Developer - (Digital Dose, India - Remote)

 July, 2023 – December 2023

Responsibilities:-

- Collaborated with cross-functional teams to develop seamless API integrations, enhancing data flow
- Maintained advanced expertise in React state management strategies, ensuring optimal application performance.
- Contributed to an enhanced user experience by closely aligning with UI/UX designers and adhering to design specifications.
- Optimized application efficiency by implementing Redux for state management and minimizing unnecessary component re-rendering.

Environment: HTML 5, CSS 3, Bootstrap, Tailwind CSS, React JS, Restful API, Git, Git-Hub, Visual Studio,

Frontend Developer – Internship (Computeribe)

 April, 2023 – June 2023

Responsibilities:-

- Collaborated with senior developers to design and implement responsive, user-friendly web interfaces using HTML, CSS, and JavaScript.
- Assisted in the development of interactive features and UI components using React.js to enhance user experience.
- Optimized web pages for maximum speed and scalability by refining code structure and ensuring cross-browser compatibility.
- Participated in debugging and troubleshooting of front-end issues to improve website functionality and performance.

Environment: HTML 5, CSS 3, Bootstrap, Tailwind CSS, React JS, Restful API, Git, Git-Hub, Visual Studio,
